December 26, 1995

The Honorable Ted Stevens
Chairman
The Honorable Daniel K. Inouye
Ranking Minority Member
Subcommittee on Defense
Committee on Appropriations
United States Senate

This report responds to your joint request that we provide information on the stipends and expenses of the boards of trustees¹ and other management advisory personnel who served in fiscal year 1993 at DOD's FFRDCs. Specifically, you asked us to provide information on (1) the extent to which federal funds were used by FFRDCs to pay these costs; (2) the range and highest daily stipends paid to individual trustees and other management advisory personnel; (3) FFRDC advisers' costs and where applicable, the Defense Science Board's (DSB) limits on paying for such expenditures; (4) the total and average daily FFRDC costs for their trustees and advisory personnel; and (5) individual stipends and total expenditures for each of the 186 FFRDC fiscal year 1993 trustees and other management advisory personnel. This report is a companion to our recently issued report on FFRDC trustee affiliations.²

Background

FFRDCs were established during World War II to meet special research needs that federal and private sector facilities could not provide. The number of FFRDCs has varied over the years, but in fiscal year 1993 there were 39,³ with 10 sponsored by DOD located at—the Aerospace Corporation, the CNA Corporation, the Institute for Defense Analyses, Lincoln Laboratory,⁴ the Logistics Management Institute, the MITRE

¹To simplify discussion, all Department of Defense Federally Funded Research and Development Centers (DOD FFRDC) board members are called "trustees" in this report.

²Defense Research and Development: Fiscal Year 1993 Trustee Affiliations for Federally Funded Centers (GAO/NSIAD-95-135, July 26, 1995).

³The 29 non-DOD FFRDCs are managed by the Department of Energy (19), the National Science Foundation (6), the Federal Aviation Administration (1), the Internal Revenue Service (1), the National Institutes of Health (1), and the National Aeronautics and Space Administration (1).

⁴The Massachusetts Institute of Technology (MIT) manages the Lincoln Laboratory.

Corporation, the Rand Corporation,⁵ and the Software Engineering Institute.⁶

Each FFRDC is managed by a private sector nonprofit company or university and funded primarily through a renewable 5-year, sole-source contract. The 8 boards of trustees managing the 10 DOD FFRDCs in fiscal year 1993 had 158 total members, including 15 trustees sitting on 2 boards and 1 on 3. The FFRDCs generally used the same bases to pay both their advisory personnel and trustee stipends and other expenses. In addition, the FFRDCs brought in 28 other management advisory personnel to assist these trustees. The CNA Corporation and the MITRE Corporation employed most of these advisers (12 and 10, respectively), while 4 FFRDCs (the Aerospace Corporation, Lincoln Laboratory, the Logistics Management Institute, and the Rand Corporation) employed none. In fiscal year 1993, Congress appropriated about \$1.4 billion for the DOD FFRDCs.

As requested, we identified the maximum compensation and expenses payable to the members of the DSB and compared it to the compensation and expenses paid to the DOD FFRDC trustees and other management advisers, although their functions are not identical. Under the guidance set forth by DOD Directive 5105.4, the DSB provides DOD and the Joint Chiefs of Staff with advice on science, technology, research, engineering, manufacturing, and other matters of special interest. Its 31 members are selected on the basis of their preeminence in the fields of science, technology, military operations, research, engineering, and manufacturing, and generally serve a maximum of two 2-year terms.

Results in Brief

The CNA Corporation, the Institute for Defense Analyses, and the Software Engineering Institute operate solely with federally derived funds. The FFRDCs operated by the Aerospace Corporation, Lincoln Laboratory, the Logistics Management Institute, the MITRE Corporation, and the Rand Corporation used both federal and non-federal funds to pay trustee and adviser expenditures. According to these FFRDCs, the use of non-federal funds in fiscal year 1993 was about 28 percent for Lincoln Laboratory, 14 percent for the Rand Corporation, about 5 percent for the MITRE Corporation, 2 percent for the Aerospace Corporation, and about 1 percent for the Logistics Management Institute.

⁵Rand Corporation manages three FFRDCs—the Arroyo Center for the Army, Project Air Force, and the National Defense Research Institute for DOD.

⁶Carnegie Mellon University manages the Software Engineering Institute.

The average daily stipends paid to the 186 trustees and advisory personnel ranged from \$0 (for 27) to \$7,200 (for 1). Of those that were paid a stipend (159 of the 186), 40 percent received \$1,501 or more a day. The 11 highest average daily stipends ranged from \$3,038 to \$7,200. (See app. I.)

The DSB reimburses its members for travel expenses in accordance with federal travel regulations and pays stipends limited by title 5 U.S.C. Specifically, the fiscal year 1993 DSB's maximum daily limits were: \$333 for stipend, \$140 for lodging (for New York City), and \$38 for meals. There are no set limits on airfare costs, and expenditures for gifts, entertainment, and spouses are generally not allowable.

Although most of the average daily costs for trustees and advisers (excluding stipends) were small, there were some larger expenditures that exceeded DSB limits. For example, four Lincoln Laboratory trustees had 1 night's lodging costs of about \$230 in Boston, Massachusetts (versus a limit of \$101), and seven MITRE Corporation trustees had 2 days average meal costs of about \$140, while six others' costs were about \$220 for the second day (versus a limit of \$38). (See app. II.)

There was significant variation in the total trustee and management advisory personnel expenditures paid by FFRDCs. The total expenditures ranged from \$4,763 at the Software Engineering Institute to \$496,951 at the MITRE Corporation, while average daily stipends paid (the Software Engineering Institute paid no stipends) ranged from \$370 at Lincoln Laboratory to \$2,057 at the Rand Corporation. (See app. III.)

Detailed information on fiscal year 1993 expenditures for each individual trustee and other management advisory personnel is in appendix IV.

Scope and Methodology

We initially requested from each DOD FFRDC stipend and expense data and number of days worked for trustees and other management advisory personnel, and expense data for their spouses. We defined other management advisory personnel to include all non-full-time personnel brought into the FFRDCs during fiscal year 1993 to assist the trustees in directing, reviewing, or evaluating operations, policies, or projects. Specifically, we asked each FFRDC to (1) provide fiscal year 1993 individual stipend and other work-related costs that were paid to, reimbursed to, or paid for individual trustees, other management advisory personnel, and their spouses; (2) identify which costs were paid for with federal funds; and (3) provide the number of days each individual worked in fiscal year

1993. The Rand Corporation advised us that they would not provide information on reimbursements for trustee spouses' travel costs since neither the Rand Corporation nor its three DOD FFRDCs claim reimbursement from the government for these expenditures.

For this report, we defined federal funds as all money paid by the federal government to FFRDCs, including fees and any other type of payment regardless of their designation or subsequent use. We did not look at the propriety or allowability of any costs, as these considerations are part of the Defense Contract Audit Agency audits of the FFRDC operations.

We used average daily costs as the comparison measurement for FFRDCs and individuals. Initial data received from the FFRDCs related only to work done at trustee meetings. No other specific trustee or adviser workdays were provided by any FFRDCs. Therefore, we used the number of days in attendance at meetings as the number of days worked. In addition, the stipend amounts used included payments for time spent traveling to and attending meetings as well as retainers and other compensation. For the cases where no workdays were recorded, we used 1 workday to compute average daily costs. We used random numbered codes to identify trustees (with a T prefix) and management advisory personnel (with a M prefix) in report schedules, to protect the privacy of the individuals involved. Our work was performed from November 1994 through September 1995.

Agency Comments and Our Evaluation

In commenting on a draft of this report, each of the eight organizations managing DOD's FFRDCs generally agreed that the report accurately presented the data provided on their expenditures. However, five of them indicated that they believed it was not appropriate to compare DSB and FFRDC trustee stipends. In their view, the FFRDC trustees and DSB members have different financial and management responsibilities. Three also felt that the way the daily average stipends were calculated did not take into account the possibility of travel days and work being done prior to trustee meetings.

As requested, we compared the amount of money paid by FFRDCs for their advisory personnel to the limits payable by DSB. Although the responsibilities of the DSB members are not identical to those of the FFRDC trustees, DSB members, like the trustees, are preeminent in their fields and provide advice to the highest levels of DOD. We used the number of days in attendance in meetings as the number of days worked for consistency and because it was the only data initially provided by FFRDCs, which did not

maintain records of other specific workdays for their advisory personnel. The payments made for any travel time to meetings is, as noted in our methodology, included as part of the total stipends paid. Therefore, we have not revised the report based on these comments. Six of the organizations managing FFRDCS also offered some technical corrections or editorial suggestions which we incorporated in the report where appropriate.

Unless you publicly announce the contents of this report earlier, we plan no further distribution until 30 days from its issue date. At that time, we will send copies to the Secretaries of Defense, the Army, the Navy, and the Air Force; the Directors, Office of Management and Budget and Defense Research and Engineering; other congressional committees and subcommittees; and each of the DOD FFRDCS. We will also make copies available to others on request.

If you or your staff have any questions about the information presented in this report, please contact me on (202) 512-4587. The major contributors to this report are listed in appendix V.

T7	IDA	2	3,038

^aFor comparison purposes, the maximum allowable daily stipend for fiscal year 1993 for members of the Defense Science Board was \$333.

^bT represents a trustee, and M represents a management adviser.

^cAbbreviations are explained on page 7.

^dAvailable during the year on retainer; however, no workdays were recorded by the FFRDC. One day worked was used to compute a daily stipend.

^eMITRE Corporation stipends include quarterly retainers.

Examples of Highest Fiscal Year 1993 Expenditures

FFRDC ^a	Cost ^b	Comments
MTR	\$7,450	Private plane hired to transport nine trustees and nine officers from Los Angeles International Airport to Edwards Air Force Base and return (about 110 miles each way). Federal funds were used.
LMI	595	Flowers sent to 17 trustees during the December 1992 holiday season. Federal funds were used.
LLB	920	Lodging cost of \$230 each for four trustees for 1 night in Boston. Federal funds were used.
MTR	4,113	Breakfast and lunch for 13 trustees (plus one dinner for 6) at a 2-day meeting. Federal funds were used.
ASP	14,308	Six group meals for trustees, their spouses and guests during six trustee meetings. Federal and non-federal funds were used.
LLB	6,753	Two trustee dinners (20 attendees at first dinner and 17 at the second, including some MIT administration and LLB management officials). All costs were paid by MIT.
MTR	2,500	One-day lunch and tour for 9 trustees' spouses and 10 officers' wives. Federal funds were used.

^aAbbreviations are explained on page 7.

^bFor comparison purposes, the Defense Science Board's maximum daily expenditures for fiscal year 1993 were \$38 for meals and \$140 for lodging. There are no specific limits on the cost of airfare, and the cost of gifts and spouses' expenditures are generally not allowable.

Trustee and Management Advisory Personnel Fiscal Year 1993 Stipends and Expenditures

Introduction

Included in this appendix are the fiscal year 1993 stipends and expenditures for each of the 186 trustees and management advisory personnel at the Department of Defense (DOD) FFRDCs. The amounts listed were prepared from financial data provided by each FFRDC on fiscal year 1993 individual stipends and other costs that were paid to, reimbursed to, or paid for individual trustees and other management advisory personnel.

We used (1) average daily costs as the comparison measurement for FFRDCs and individuals; (2) the number of days in attendance at meetings as the number of days worked; (3) payments for traveling to and attending meetings, as well as retainers and other compensation, as components of an individual's stipend; and (4) 1 day to compute average daily costs for the cases where no workdays were recorded.

Roy B. Karadbil, Evaluator-in-Charge
Charles W. Malphurs, Evaluator-in-Charge
Jai E. Lee, Senior Computer Specialist
Shirley B. Johnson, Evaluator
Stacy Edwards, Evaluator

Ordering Information

The first copy of each GAO report and testimony is free. Additional copies are \$2 each. Orders should be sent to the following address, accompanied by a check or money order made out to the Superintendent of Documents, when necessary. Orders for 100 or more copies to be mailed to a single address are discounted 25 percent.

Orders by mail:

U.S. General Accounting Office
P.O. Box 6015
Gaithersburg, MD 20884-6015

or visit:

Room 1100
700 4th St. NW (corner of 4th and G Sts. NW)
U.S. General Accounting Office
Washington, DC

Orders may also be placed by calling (202) 512-6000 or by using fax number (301) 258-4066, or TDD (301) 413-0006.

Each day, GAO issues a list of newly available reports and testimony. To receive facsimile copies of the daily list or any list from the past 30 days, please call (202) 512-6000 using a touchtone phone. A recorded menu will provide information on how to obtain these lists.

For information on how to access GAO reports on the INTERNET, send an e-mail message with "info" in the body to:
